

spk::IMessageConsumerModule

```
graph BT; A[spk::KeyboardModule] --> B[spk::IMessageConsumerModule];
```

A UML class diagram showing an inheritance relationship. The base class, `spk::IMessageConsumerModule`, is represented by a white rectangular box at the top. The derived class, `spk::KeyboardModule`, is represented by a gray rectangular box at the bottom. A solid blue arrow points vertically from the top of the `spk::KeyboardModule` box to the bottom of the `spk::IMessageConsumerModule` box, indicating that `spk::KeyboardModule` inherits from `spk::IMessageConsumerModule`.

spk::KeyboardModule
